Profile

Multidisciplinary professional with experience in design, video production and digital solutions development. Combines visual repertoire with technical execution to build interfaces, websites, content, automations and AI-assisted workflows. Quick to learn new tools, break down problems and turn needs from different teams into clear, working solutions.

Experience

Nobre Marketing — São Sebastião do Paraíso, MG, Brazil
Video Editor — *Dec 2024 – Sep 2025*

- Institutional videos and audiovisual content produced for the agency's campaigns and communications.
- Expanded role to cover organization, research and development of solutions for internal teams.

Nobre Marketing — São Sebastião do Paraíso, MG, Brazil
Strategic Role — *Sep 2025 – May 2026*

- Institutional websites and campaign pages built from scratch, with tracking and event data stored in a dedicated database.
- Internal tools and API-connected automations, combining interface, application logic and operations.
- AI-driven video production automation, cutting video preparation from roughly 1h–1h30 to 10 minutes or less.

Selected Projects

Nobre Hub — Nobre Marketing
Modular internal platform

- Nobre Hub built as the agency's operational core, bringing together CRM, customer service, production, after-sales, finance and team management.
- Sales and WhatsApp customer service flows, with lead history, messages, media, templates, scheduling and contact distribution.
- Production and after-sales flow connected to projects, owners, deliveries, approvals, revisions and client follow-up.
- Dashboards, permissions and settings to organize operations across different departments.
- Nobre Hub Studio module built to automate scripting, scene breakdown, images and animations, cutting the process from roughly 1h–1h30 to 10 minutes or less.

Skills

- **Design and video:** Figma, Photoshop, Illustrator, Premiere, After Effects and CapCut.
- **Digital solutions:** Websites, internal systems and automations for different workflows.
- **AI and automation:** ChatGPT, Claude and Gemini applied to building tools and automating processes.
- **Languages:** Portuguese (Native), English (Advanced).
